About Frank Voss

Frank Voss, President

Toyota Motor Manufacturing Canada Inc.

Frank Voss is the President of Toyota Motor Manufacturing Canada Inc. (TMMC), overseeing the production of Toyota RAV4, Lexus RX, and NX models at the Cambridge and Woodstock plants in Ontario. With over 30 years of automotive industry experience, Frank has played pivotal roles in Toyota's North American operations, advancing production efficiency and sustainability.

A registered Professional Engineer with a bachelor's in mechanical engineering, Frank joined Toyota in 2002, quickly moving through senior roles in Production Control, Administration and Manufacturing. His strategic leadership has driven TMMC's success, making it a model for operational excellence and innovation.

Frank is actively involved in the community, serving on multiple boards, and is committed to fostering industry collaboration and local growth. Based in Kitchener, Ontario, he is recognized for his forward-thinking leadership and contribution to Toyota's global success.
